Homework 4 Reflection

Glen Madsen

March 26, 2018

1. In retrospect, what could you have done better to reduce the time you spent solving this assignment?
I could have had a better understanding of BFS.

2. What could the Principles of Software staff have done better to improve your learning experience in this assignment?
I thought this homework was fairly easy, some more clear instructions over RI and AF would have been nice I guess.

3. What do you know now that you wish you had known before beginning the assignment?
I wish I had known that unlike as displayed in the HW4 HTML file, we cannot in fact add support for reflexive edges, so I wouldn't have had to make a small adjustment to hw4.
